1. The CHAIRMAN drew the attention of the Committee to the United Kingdom proposal to export 900 grams of Uranyl nitrate "Analar" to Hungary. He invited Delegates to give the views of their authorities.

2. The NETHERLANDS Delegate stated that his authorities raised no objection to this export but he wished to point out, as he had stated in the Committee on previous occasions, that his authorities had themselves refused export licences for small quantities of similar Atomic Energy items as a matter of principle.

3. There were no objections from the other Members of the Committee and the UNITED KINGDOM Delegate expressed his thanks for the favourable replies which had been given.
